

Show Your Support - Contribute to LatinoBuilt's New Office Build Out

LatinoBuilt strives to build a community that empowers, supports, and improves opportunities for Latino-owned construction businesses. We are humbled to say after three years in operation, our organization has reached over 100 in membership. We continue to conduct educational workshops, and last year we provided over \$106,250 worth of technical assistance to our contractors. Our programs address systemic barriers to entry for minorities which help expand diversity, which is much needed in the construction industry.

Our Board of Directors has worked very hard to build a solid foundation for our staff and members to flourish. Our team and educational programming continue to grow. To accommodate this growth, we are announcing a move into our own space. We're excited about this new office space and its possibilities for the organization, but we need your help to make it a home for our community.

Latinobuilt Foundation is taking on this new initiative under the **Nuestro Hogar Program**. Any donation and/or in-kind contributions made to Nuestro Hogar to help build out our new home will be 100% tax-deductible. If your business goals align with helping to develop opportunities for economic and family stability, please consider a donation to Nuestro Hogar.

Below you'll find our checklist of items needed for LatinoBuilt new office build-out along with a concept rendering of our vision. ***Our overall estimated costs of improvements are approximately \$40,000.00.***

Our new space will include:
